MY LIFE

The Open University 2021 - **

I'm currently a student for software engineering at the open university , I Got accepted when i was 18 and 1/2 started learnning about software touched a little bit of HTML AND CSS and im now learning Java . Looking for my first job to gain experience. Hard working and very ambitious guy willing to do whatever it takes craving for success and willing to do absolutely everything for my dream.

opened my own business 2023 - **

I'm currently a 20 year old business owner , i built my own website for my jewelry brand , just a little side hustle aside from my real passion that is software , i would love if you check my website at omeromosio.com

IN CONCLUSION

I am passionate about excellence and success. I am motivated by a burning desire to showcase my dedication and potential. I am eager to contribute my skills and talents to a dynamic environment where innovation and growth thrive.
